## **Accuform Introduces One-Way™ Printed Welding Screens**

**Brooksville, FL, December 5, 2013** – Accuform Signs, North America’s leading manufacturer of facility identification solutions, announced today their version of the mobile welding screen, the One-Way™ Printed Welding Screen.

Accuform’s unique ONE-WAY™ printing method allows welders to see through the screen, while simultaneously protecting and informing employees on the other side.

ONE-WAY™ Printed Welding Screens provide a quick, easy solution as temporary welding barriers and are available in 6' x 6', 6' x 8' or custom sizes with three colors (tints) – gray, yellow and red.

“This solution transcends the industry norm and shows off our digital printing capabilities,” said Chief Executive Officer, Wayne Johnson. “What better way to convey a safety message but to print right on the screen, protecting employees, visitors and contractors while simultaneously conveying a motivational safety message.”

Accuform President Dave Johnson added, “We continuously seek opportunities to remind employees that there are many reasons to be safe, but most importantly, getting home safely to loved ones.”

The One-Way™ Printed Welding Screen comes in 12 stock messages or you can customize the message with your photos, logos and messages. [http://bit.ly/Welding\\_Screens](http://bit.ly/Welding_Screens)
